

The State Of Ohio,
Knox County, SS

Before me, Lisa G. Parker, Personally came Francis L Flood, Who Being duly sworn according to the law, deposes and says during the last week in February 2012, In the county of knox, one Elite Excavating of 4500 Snodgrass rd Mansfield ohio 44903, did unlawfully commit a felony by disposing sewer pipes removed from my septic tank in to the creek next to my house while installing a sewer system on my property, therefore violating ohio revised code [3745-27-01[0][4] open dumping. The ohio revised code 3734.99[a] considers this a felony.

This action was witnessed by several people including members of the ohio EPA and members of knox county water and soil conservation and myself and my wife and neighbors.

Subject: Re: Elite Excavating

according to the emails i received during federal court discovery the ohio epa and the knox county health department were fully aware of the violation.sense the ohio epa has failed to act upon this i have no choice but to turn my six years of documentation over to the FBI for review. the sewer pipes are still laying over the creek bank ,the county water and sewer regulations still have not been met ,knox county health department regulations or the ohio EPA regulations have not been met so how is it you can not find merit in my claim.i have still pictures and video. and the fact that every one at the state and county officials have signed off of this project and allowed the construction crew to draw there last pay and leave town according to the us epa office constitutes fraud.

Dear Mr. Flood,

This is Kristopher Weiss in Ohio EPA's Public Interest Center. You and I met when Mike Gallaway and I visited your home a couple of years ago to discuss the alleged dumping you raised again in your recent email to my colleagues in the divisions of Drinking and Ground Waters and Materials and Waste Management.

Ohio EPA has investigated these complaints and found them to be without merit. Additionally, the company you cite in your complaint, Elite Excavating, is bankrupt.

The Agency does not intend to look in to these issues again. If you have other issues that you believe fall under Ohio EPA's regulatory scope, please feel free to contact me and I will work with my colleagues to assist you.

Thank you,

Kristopher Weiss
